Dear Parents/Guardians,

Your child's school has registered with WordFlyers, the interactive English program designed to build students' essential literacy and higher-order thinking skills.

WordFlyers gives your child the opportunity to learn and practise **vocabulary, spelling, punctuation, reading comprehension, writing** and **grammar** skills. This interactive online program encourages students to read short, high-interest, real-world texts. The motivational theme of the site is international travel, meaning that the more activities your child completes, the more points they earn and the more places they can travel to.

One of the many benefits of WordFlyers is that the adventure doesn't have to be cut short by the end of the school day, as students can also use the program at home on their own computers and tablets!

To access WordFlyers at home, simply visit www.wordflyers.com.au and click on 'Student' to log in. Your child has their own unique login details. It's that simple!

To enjoy the program at home, you will need, at a minimum:

- ✓ Windows: Internet Explorer 9, Firefox 3.6 or Google Chrome
- ✓ Macintosh: Safari 4.0, Firefox 3.6 or Google Chrome
- ✓ Screen Resolution: 1024x768
- ✓ Flash Player: 10.56+ for older versions of Firefox
- ✓ Sound card must be working
- ✓ A high speed internet service.

If you come across any technical issues, please try the following:

- ✓ Refresh the page.
- ✓ Check firewalls / security settings / content filters as sometimes this blocks content, like sound.
- ✓ If you're experiencing issues using Internet Explorer, please try a different browser such as Firefox or Google Chrome.
- ✓ Clear your cache: <http://www.wikihow.com/Clear-Your-Browser's-Cache>
- ✓ Modify proxy/content filter settings to accept larger files up to 5 MB in size
